## HEALTH AND SAFETY POLICY

### Part 1: General Statement

As governors of Bancroft's School we fully recognise the provisions of the Health and Safety at Work Act 1974 and our collective responsibility for providing, so far as is reasonably practicable, a safe and healthy school for all of our employees, pupils, contractors, visitors (including parents) and others who could be affected by our activities. In our role as employer we attach high priority to ensuring that all the operations within the school environment, both educational and support, are delivered in an appropriate manner. The governors are committed to promoting the welfare of all in our community so that effective learning can take place.

We fulfil our responsibility as governors of Bancroft's School by appointing a governor with responsibility for overseeing health and safety.

Day-to-day responsibility for the operation of health and safety at the school is vested with the Head. However, as governors, we have specified that the school should adopt the following framework for managing health and safety:

- The governor overseeing health and safety attends the meetings of the school's health and safety committee termly and receives copies of all relevant paperwork.
- A report on health and safety covering: statistics on accidents to pupils, staff and visitors, staff training, fire drills, and all new or revised policies and procedures is tabled at each term's Estates Committee meeting.
- The minutes of the Committee's discussion on health and safety are tabled at each meeting of the full Governing Board together with any other issues on health and safety that the committee chairman wishes to bring to the Board's attention.
- The external fabric of the school, its plant, equipment and systems of work are surveyed and inspected regularly by competent professionals.
- These reports are considered by the Estates Committee and its recommendations (together with other defects) form the basis of the school's routine maintenance programmes.
- The school's adherence to health and safety in catering and cleaning of the food preparation and eating areas is subject to external inspection by the Environmental Health Officer (EHO). In addition, the Catering Manager arranges for an independent hygiene and safety

audit of food storage, meal preparation and food serving areas three times a year, together with regular deep cleaning and pest control by professional contractors, and that the Deputy Bursar reports on all these aspects to the Estates Committee.

- The school conducts annual fire risk assessments. The assessments are carried out by a competent person or body. Items identified within the action plan are dealt with swiftly. Any alterations or additions to the school buildings are considered within the assessment. The Health and Safety Committee review this risk assessment every time it is amended and submit a report to the Estates Committee.
- An external health and safety consultant reviews the overall arrangements for health and safety, including fire safety, the general state of the school, and reports on actions required with recommended timescales. The progress of implementation is monitored by the Estates Committee.
- The school has a competent person undertake a risk assessment for legionella. The school receives monthly reports which identify any areas in need of address.
- The school has a comprehensive policy in place for the training and induction of new staff in health and safety related issues which should include basic 'manual handling' and 'working at height training'. Health and safety training that is related to an individual member of staff's functions, such as science technician, will be provided in addition to the 'standard' induction training. First aid training and minibus driver training are provided to any member of the teaching staff who is involved with trips and visits and to selected members of the non-teaching staff.

All members of staff are responsible for taking reasonable care of their own safety, that of pupils, visitors, temporary staff, volunteers and contractors. They are responsible for co-operating with the head, the bursar and other members of the Senior Management Team ("SMT") in order to enable the governors to comply with health and safety duties. Finally, all members of staff are responsible for reporting any significant risks or issues to the bursar.

All employees are briefed on where copies of this statement can be obtained on the school's intranet. They will be advised as and when it is reviewed, added to or modified. Details of the organisation and arrangements for carrying out the policy are to be found in parts two and three of this document.

Signed

Professor P. Ogden, Chair of Governors, for and on behalf of the Board

## **Part 2: Organisation**

This part of the Policy deals with the organisation, planning, implementation, operational monitoring and management review of the Policy. It also covers the development of general policy and how we train our employees (and others) to carry out our activities. An organogram has been prepared to assist in the understanding of the health and safety structure within the School, which is shown at the end of this section.

### **1. Board of Governors ("The Board")**

The Board has overall collective responsibility for health and safety within the School. It has a responsibility to ensure that health and safety issues are considered and addressed and that the Policy is implemented throughout the School. They will also make adequate resources available so far as is reasonably practicable, to enable legal obligations in respect of health and safety to be met. Where appropriate, advice from a Competent Person will be sought to advise the School and tasks will be delegated to suitable employees in order to assist the Board in carrying out its duties.

### **2. Head**

The Head will assist the Board in directing the overall management and development of the Policy, defining the aims of the Policy and communicating the responsibilities associated with the management of health and safety within the School. The Head will also report to the Board on health and safety performance and assist the Board in implementing changes in the Policy which the Board have approved.

### **3. Bursar**

The Bursar will have day to day management responsibility for ensuring that, so far as is reasonably practicable, arrangements are in place for:

- Safety and security
- Fire safety
- Electrical safety
- Gas safety
- Water quality
- Asbestos
- Emergencies
- Staff induction

The Bursar will also act as the School Safety Co-ordinator, whose duties will include:

- advising the Head on maintenance requirements
- co-ordinating advice from specialist safety advisors and producing associated action plans
- monitoring health and safety within the School and raising concerns with the Head
- compliance with the Construction (Design and Management ) Regulations
- chairing the School Health and Safety Committee

- Good standards of housekeeping, including drains, gutters etc
- Control of hazardous substances for grounds maintenance activities

#### **6. External Health and Safety Advisors**

The Bursar will arrange as appropriate for external consultants to advise on matters of health and safety within the School. Such provision may include:

- Structural surveyors who are retained to give advice on the external fabric of the school.
- Engineers who monitor and service the school's plant, equipment, including boilers, lifts and hoists annually.
- Gym and fitness equipment and machinery used in both design and technology and in the maintenance department are serviced annually.
- The school's adherence to health and safety in catering and cleaning is subject to external inspection by the Environmental Health Department. In addition, the Catering Manager arranges for:

- an independent hygiene and safety audit of food storage, meal preparation and food serving areas three times a year.
  - professional advice from a dietician on healthier food, menu planning and special diets as needed.
  - the professional deep cleaning of all equipment, high level cleaning of all cooking, food preparation and storage surfaces, areas etc twice a year.
  - appropriate pest control measures to be in place.
- The school conducts annual fire risk assessments. The assessments are carried out by a competent person or body. Items identified within the action plan are dealt with swiftly. Any alterations or additions to the school buildings are considered within the assessment.
  - In addition to the weekly fire alarm tests, the alarm system, together with all smoke detectors, emergency lighting, extinguishers and panic buttons are tested annually by a qualified contractor.
  - An external health and safety consultant reports annually on the arrangements for health and safety in all lessons, support areas, public spaces, sports and swimming facilities.
  - The school has a suitable and sufficient risk assessment for legionella, every two years and a quarterly water sampling and testing regime in place.
  - The school maintains an asbestos register and the Deputy Bursar is responsible for ensuring that it is kept up-to-date and for any sampling or removal before major works takes place. He is also responsible for the maintenance of an asbestos management plan. He is also responsible for making sure that contractors are fully briefed on areas of asbestos before starting work.
  - The school's radiation protection supervisor (RPS), Neil Jaques is responsible for liaison with the radiation protection advisor (RPA), John Makepeace of NPL Teddington for ensuring compliance with the Ionising Radiation Regulations 1999 and local rules made to comply with these regulations. The RPS is also responsible for ensuring compliance with the Radioactive Substances Act 1993 and exemption certificates granted under them.

## **7. School Health and Safety Committee**

The Committee will meet once a term, and will be chaired by the Bursar. The Governor who is responsible for overseeing health and safety will attend these meetings. The other members of the Committee will be:
